ST DOMINIC'S COLLEGE

INTRODUCTION

St Dominic's College was established in 1965 as an affiliated college of the University of Kerala by the catholic management of St. Dominic's Forane Church, Kanjirappally. Later, with the establishment of the Mahatma Gandhi University in 1983, the college became one of the A grade colleges affiliated to it. The college has been rendering yeoman service to generations of students ever since its inception. At present, the college has 13 undergraduate and 6 postgraduate programs. One of its departments, viz., the Department of Commerce, is a research center where as the other departments are continuously striving to attain that status.

The college provides ample facilities for its students to develop their intellectual, physical, aesthetic, social, emotional, and moral capacities in an integral manner. The college has instituted numerous scholarships and endowments in view of promoting the aforesaid capacities of the students. Various clubs covering a wide range of activities play a vital role in the campus life of students. *Both in the curricular and co-curricular areas, the college maintains a unique position in the Mahatma Gandhi University. Every year UG and PG students of the college secure top positions in various university examinations. In the arena of Sports and Games too the college wins laurels every year. The phased development of the college is well attested in the accreditation and assessment grades that the college has received earlier, Three Star in 1999, 'B++' in 2007 and 'A' Grade in 2017.*

True to the adage "Fear of God is the beginning of wisdom,"  college keeps the highest Christian ideals along with academic excellence.

INTERNAL QUALITY ASSURANCE CELL (IQAC)

As per the National Assessment and Accreditation Council (NAAC) guidelines, every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. The IQAC has to ensure that whatever is done in the institution for "education" is done efficiently and effectively with high standards. In order to do this, the IQAC will have to establish procedures and modalities to collect data and information on various aspects of institutional functioning. SDC was accredited by NAAC in 1999 for the first cycle, in 2007 for the second cycle and in 2017 for the third cycle. The visit of the NAAC team for the fourth cycle of accreditation will be at the beginning of the next academic year. The institution needs to submit the Annual Quality Assurance Report (AQAR) to NAAC by the end of September every year.

The objectives of IQAC are the following:

- ▶ To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of the institution.
- ▶ To promote measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

NATIONAL SKILLS QUALIFICATIONS FRAMEWORK (NSQF)

Government of India, considering the requirement for skill development among students, launched National Vocational Education Qualification Framework (NVEQF) which was later on assimilated into National Skills Qualifications Framework (NSQF). NSQF organizes qualifications according to a series of levels of knowledge, skills and aptitude. These levels are defined in terms of learning outcomes which the learner must possess regardless of whether they were acquired through formal, non-formal or informal learning. In that sense, the NSQF is a quality assurance framework. It is, therefore, a nationally integrated education and competency-based skill framework that will provide for multiple pathways, horizontal as well as vertical, both within vocational education and vocational training and general and technical education, thus linking one level of learning to another higher level. This will enable a person

to acquire desired competency levels, transit to the job market and at an opportune time, return for acquiring additional skills to further upgrade their competencies. The college has two NSQF programs, namely, B.Voc. Agriculture Technology and B.Voc. Agro Food Processing. These programs have the following objectives:

- To provide opportunities to promote lifelong learning and skill development.
- To establish partnership with industry/employers.
- To develop a transparent, accountable and credible mechanism for skill development across various sectors.
- To create increased potential for recognition of prior learning.
